

PERFECT Style 379

PRODUCT DESCRIPTION

A unique braided packing made from PTFE yarn with aramid corners.

SERVICE PARAMETERS

Maximum Service Temperature:

-200 to +260 °C

Compatible pH Range:

2 to 12 ph range

Pressure Rating:

180

Velocity

12 Mtrs/sec.

SERVICE

This packing is a combination of especially pure PTFE Yarn and aramid yarn, impregnated with special mix. It has a high structure strength and density. The presence of PTFE Yarn is a reason for excellent chemical stability to aggressive environments and good sealing properties. It is widely used in food, sugar industries, brewing trade, chemistry, pharmaceuticals, papermaking etc.

Information supplied this catalogue, is based on our general experience and is given in good faith, because of the many particular factors, which are out side of our knowledge and control and affect the use of products, nowarranty is given is to be implied with respect to such information.
